Fashion in Songs.

David F. Smith, Attorney for Plaintiff.

The woman vocalist who cannot sing in largest sum for any one day in the history the German tongue is voted as being "way of the company was \$90,626.30. behind the age" now by society. To sing in German is considered the most up-todate of vocal performances. The old feat of singing in Italian, which was considered a great one by society a generation ago, gave place to singing in French and now

to singing in German. It is not so easy for the novice to acquire the art of singing in German as it is to master the words of an Italian or French song, but the ballad or other composition possesses a charm and attractiveness so y its own when rendered in the original tongue that the result is therefore ample compensation for the special effort

Earnings of Big Four for First Six Months of Fiscal Year, and of Panhandle for Ten Months.

The train records show considerable improvement in business in the week ended Jan. 24, as compared with that of the preceding week, 3,172 more loaded cars being handled at this city. The increase was largely in local business, through traffic still suffering through the inability of connecting lines east to take the business offered them. More especially does the Big Four, the Lake Erie & Western and the Cincinnati, Hamilton & Dayton feel this. The Pennsylvania is still suffering from a congestion of traffic at division points, but is not in as bad shape as a month ago. All Indianapolis lines, however, are short of power and troubled to furnish cars to handle delayed freights, consequently new business is suffering seriously. Grain men are anxious to get cars to forward grain sold weeks ago. Packers are unable to fill orders with desired promptness, and all classes of through freights are moving slowly. In

local business conditions are not so bad. Finding it impossible to get through freights to their destination, local officials are taking a large per cent. of the empty cars to load with freights where they know they can be taken care of and kept in service, as thus far the per dlem plan has proved a failure, and consignees must be urged by traffic officials to induce them to hasten the unloading of cars. Another drawback is that connecting lines are refusing to allow their cars to leave their own lines, so careless are connections in returning them, per diem and demurrage charges being of little importance to such connections. Coal continues one of the most important features of traffic. North and south

lines are handling their business with much more promptness than are the east and west lines, and their traffic is heavier than usual in the winter months. Large quantities of Southern lumber are now coming ucts going to Southern markets. The following table shows the number of cars received and forwarded at Indianapolis in the week ended Jan. 24 and for the corresponding weeks in 1902 and 1901:

York last week, that he has not resigned, nor has he any intention of doing so. This was developed at last Friday's meeting of the directors of the Big Four Company, and is also a statement made by himself. The story that he proposed to give up active railroad life, as usual, had its origin in Cincinnati, and is believed to have been sent out by some individual who seems anxious to have some occasion to frequently put out this false report.

His identity is not known to Mr. Ingalls but as the rumor always comes from Cincinnati first, it is supposed to emanate from one source. It has been of much annoyance, and hereafter when it is again started from his home city without evidence of authority from Mr. Ingalls it will not be entitled to the slightest attention.

Report of New York Commission.

The State Board of Railroad Commissioners of New York is sending out its twentieth annual report. It states that during the year ending June 30, 1902, 199,373 persons were employed on New York roads. The gross earnings of these roads were \$16,671,-351.18 more than they were in the year ending June 30, 1901. The operating expenses were \$14,399,745.94 more, making the net earnings from the operations \$2,271,605.24 more in 1902 than in 1901. New York roads paid \$524,874.94 taxes. The number of persons killed was 762, of whom 37 were passengers; injured, 1,868, 483 being passengers. There were carried by the steam roads 87,-388.825 passengers. Grade crossing abolished. 105; total State's appropriation for separation of grades to date, \$405,000.

Belt Road Traffic. There were transferred over the Belt road last week 19,332 cars, against 16,887 in the week ended Jan. 17. Belt road engines handled at the stock yards 1,200 car-loads of live stock, against 1,587 in the previous week, and for private switches on its line 1,247 cars, against 1,245 in the previous

The itinerary comprises thirty-three days west of Chicago. L. F. Loree, president of the Baltimore & Ohio, says the fact that his company has obtained control of the Philadelphia & Reading means no change in the manage-

ment, and that George F. Baer will remain at its head. The entrance of the Wabash into Pittsburg has become a prominent issue in a very bitter municipal election contest, and Wabash officials hope it will expedite the

passage of the necessary ordinances permitting that road to enter the city. The Wabash is protecting its trains by erecting semaphores at the ends of portions of the road where double track begins and ends. One was completed last week at Peru, and such a wreck as that of a few months ago will not again occur. Stock can be deposited until Jan. 31. The Express Gazette gives statistics of

train robberies which have occurred of late years. The latest tabulation shows that the number of train hold-ups was twentytwo, and that, commencing with 1890, there out danger in closed cars, and that other have been 328 such crimes, as a result of which ninety-eight persons have been killed and 107 injured by shooting. The Pennsylvania lines have practically

completed the work of installing storage batteries at points along the line west of Pittsburg. Battery plants have been located at Chicago, St. Louis, Cincinnati, Inburg, and it is intended to eventually have the passenger cars of the entire system lighted with electricity.

It was announced on Sunday by D. J.

Several days ago mention was made that three trainloads of Asiatic goods were en route east to New York. Philadelphia Baltimore, St. Louis and Chicago, the largest consignment of Oriental goods that has ever been sent by rail. It has been demonstrated that these goods can be unloaded on the Pacific coast and delivered in New York by rail cheaper than they can be carried to Eastern seaports by water, and this gives prestige to the Western lines which carry the goods.

The block system on the Big Four is now in operation between Indianapolis and Mattoon, telegraph stations have been esestablished every six miles of the road and it is impossible for two trains to enter a block at the same time. Assistant General Superintendent Houghton spent the greater part of last week at Mattoon proposing to put a stop to the numerous wrecks that have occurred on that division in the last two weeks. The block system is being extended and will be in operation before the close of this week between Mattoon and St. Louis.

NEWS IN SUNDAY'S JOURNAL.

Summary of Chief Events Chronicled in the Issue of Jan. 25.

Private secretaries to congressmen have formed a union and may strike for reforms. Germany is much aggrieved because the bombardment of Venezuelan ports has been condemned by Americans.

A treaty for the purpose of settling the Alaskan boundary trouble has been signed by the United States and Great Britain. The enforced resignation of Minnie Cox. the colored postmaster at Indianola, Miss. was denounced by Mr. Spooner in a speech in the Senate on Saturday. The text of the Panama canal treaty, by

which Colombia grants the United States the right to construct the waterway, has been made public by the Senate. The evidence introduced to support Congressman Lessler's charge of attempted bribery has not been conclusive so far Philip Doblin, John McCullagh and Lemuel E. Quigg testified on Saturday.

Fifty-one Democratic legislators Colorado voted for Henry M. Teller for re-election as United States senator, and

declared him elected. Republicans will hold a joint convention this week.

Indianapolis.

Indianapolis defeated Racine at polo by score of 6 to 1. The grade-crossing commission sent circular letters to the railroad presidents. Albert Ohlers, a farmer, pal of William Wren, talked too much and was arrested Edward Hunter, a farmer boy from Mc-Cordsville, had many experiences in a visit to the city.

Hugh J. McGowan left for Philadelphia on business connected with the Traction and Terminal Company. The miners' convention materially creased the salaries of its officers. President Mitchell will hereafter receive \$3,000

Governor Dubin and Senator Goodwine outlined their attitude on the Reformatory bill, the former promising an investigation as soon as the bill is passed.

Indiana Happenings.

William K. Carver was killed by a train Charles Carson was fatally hurt in Porter county sawmill.

Charles McCain was mangled by corn shredder in Jay county. E. A. Kindle and wife were struck by train at Anderson. The former may die. William Masters was killed and Bert Roberts badly hurt by a boiler explosion in a creamery at Thorntown.

Escaped in a Woman's Dress. COLUMBUS, O., Jan. 25.-Edward Cruse, the convict who escaped from the Ohio penitentary four days ago, was captured while asleep in a house in this city early this morning. He had eluded detection by wearing a woman's dress and claimed he

UNUSUALLY GOOD WEEK FOR THIS TIME OF THE YEAR.

Prices Steady and Strong Except for Eggs and Butter-Grain Markets Active and Tone Good.

The trade of the past week has been very satisfactory, the weather being such that perishable freights could be shipped withlines of trade could move more expeditiously. With this, prices have carried, as a rule, a very strong tone. In the produce market eggs went off 2c a dozen and butter 1c a pound, but cheese and poultry made small advances. On Commission row prices redianapolis, Columbus, Allegheny and Pitts- | main much the same. There was a slight advance in choice apples, but in several lines of green stuffs slight reductions were made. During the week more business was done on Commission row than in any week, Christmas week excepted, for two months. Dry goods houses had a very fair week's granting a 10 per cent. advance in wages to | business. Boot and shoe houses are having a trade in excess of that of January of last year. The same remark will apply to the leather houses. The hide market, 'as the Chicago & Alton has hired no less than | yet, shows no improvement. Groceries are very active. The highways are in good shape for the grocers off the railroads to secure stocks, and those located on the railways also are liberal buyers. Prices of staple groceries continue so steady that there is but little object in the retail grocer stocking up ahead of early requirements. Iron and steel rule steady, and while there is not so much doing as there will be later on, the dealers speak of trade as being very good for the season. The provision market is strong. Some lines of hog products, such as hams and sidemeat, are firmer on a large demand, but other lines are easing off somewhat. The domestic trade is in excess of that ever enjoyed by the local packing houses.
